

An abstract painting with a vibrant, textured surface. The composition is dominated by bold, expressive brushstrokes in a rich palette of colors including deep blues, fiery reds, warm oranges, and earthy yellows. Swaths of teal and green are visible on the left side, while the bottom features more delicate, flowing strokes in shades of pink and purple. The overall effect is one of dynamic energy and complex layering, with various textures and colors overlapping to create a sense of depth and movement.

## **Artist Statement**

Jaime Cuadrench's work is rooted in Lyrical Abstraction with an Expressionist foundation, where painting is understood not as representation, but as an act of intimate connection and pure experimentation. His practice is driven by the need to translate the intensity of emotional states and the human psyche into a visual form, leveraging personal crisis as a creative catalyst.

His process is characterized by the experimental use of water as a medium and color as a language. Cuadrench manipulates the interaction of pigment and support, allowing emotion to impulsively guide the stroke. The result is a material and fluid painting, rich in contrast and saturation, that captures the movement and energy of deep-seated feelings.

Based in Mallorca, Cuadrench develops a vibrant body of work that invites the viewer into a direct encounter with their own inner world, establishing him as an artist who uses abstraction to reflect the truth of the intangible.

## Critical study

Jaime Cuadrench's poetics are characterized by the intensity of the chromatic sign; the artist communicates with color, which becomes an emotional bridge between spiritual dimension and physical experience. It is a constant experimentation capable of challenging the senses, it touches the soul through a language made of intense colors, a gesture that makes the matter of the unconscious visible. His works convey a vibrant energy that envelops the viewer, involving him in a silent but deep dialogue. Cuadrench manages to merge the abstract with the concrete, leading the observer to reflect on the very nature of existence and on the mystery of perception. Each brushstroke tells a story, an emotion that goes beyond the visible, inviting you to explore the complexity of the human being through the filter of color and form. In this way, Cuadrench not only paints, but creates sensory experiences that transform the perception of art into a personal and unique journey.
